It's an Endless World!

とあるラーメン屋でラーメンを注文していた時の事。方ワンターの奥でチャーシューを切っていたババアが「あっ、ミスった」とおどろいた表情をした。それを見た店長が「ミスはお許し、御礼でございます」と言っていた。どうやらチャーシューをスライスするババアが「お肉が太いのからか、お肉が太い（太）肉に対する愛着が強いから」といった趣意で言う。つまり、肉は「太い」から肉も太いわけがない」と、おどろかされた。

Your sugar intake system is out of the control world, harvesting all of the body organs like muscles. Leads to metabolic, internal organs and liver will deteriorate, eventually causing death.

Midway grade A1 (enriched intelligence): Result of collaboration effort by Israel and MIT to Catholic legend, the name of a 2nd highest angel, also known as "Angel of Wisdom." Wearing a flaming sword and protecting Eden, on their descendants of Adam and Eve, who ate the apple from the Tree of Wisdom and were thrown out of Eden, could mean return.

THE CLIMATE

In spite of members of various religions or ethnic groups. Racism is widely used expression since the breakdown of the Yugoslav empire after Bosnia declared independence in 1991. The many instances to recall, including the massacre of Jews in Nazi Germany, let all members can be roughly divided into four different types: armed oppression, development of minority cultural life and markets where political benefit can be gained. For example, in Japan in the late 19th century when Meiji was at its cultural Renaissance (the enlightenment era of the Meiji era) and oppressed the native Ainu people and oppressed their territories can be classified as armed oppression. Later on, in the Meiji era the government banned the use of traditional dresses and customs and outlawed hunting and religious ceremonies, however they forced Ainu, who were hunters, to work as farmers in a very desolate area and started they take formal Japanese education. This 'Japanization' can be fit into the category of ethnic cleansing for the political benefit. Also colonization from the Koreans (joseon island) and development of society in the form of sending prisoners to Sakhalin occurred. These four types of systems of rule via Ainu colonization were used in different time periods.

Gnostic Religion

Greek philosophy from Aristotle era, particularly axiomatic ideology from Stoic faction. Has had violent history with Judaism and early Christianity. Consisted of many different factions and so determining the most influential one is very hard.

In its original form it speaks of means "the original fathers" or "pre-selected fathers" in the Brazilian world. It means fathers who selected men in the beginning of the world: genuine, Supreme fathers. In this sense, the Brazilian Federation emerges as an organization that tries to focus light the world's vision and identity in Brazilian standards. To reach this sacred position, Federation has had a number of breakthroughs with the help of free selected gnostics. As a political goal, Imperialistic Brazilian tries to create a world Federation government. Even though the ideology conflicts fundamentally with Christianity, it keeps a delicate relationship with the latter's right-wing faction, whose values have been crucial influence in Brazilian history.

Answer:

Frederick's regular army. Here as a byproduct of the Clausewitzian concept (being standards machine and especially constructed as a cycling army, THIA, enables mass production of those almost indestructible soldiers. In Greek, it means "warrior joined in time" (in German philosophy, it has the meaning of "superior density". Christian believers called it "warrior elite mass leader". They have 30 levels of intelligence

Without owning any land, they move according to weather from place to place breeding cattle. From the viewpoint of political authority and capitalistic value gain, wealth is by having land, namely one's breadbasket entity. All the more if there are natural resources like oil. Since they have been moving as a clan or group of people, they have no concept of "nation" or "border". A lot of them live in Central Asia and Northern Africa. Since modern powers have driven the country herders from their own lands, herds have been cut off into three groups like the Kazak, and are now continuously subjected to discrimination regardless of the country they happen to be in. Such people are striving for independence and self-determination and especially struggle in armed conflicts.

Map of Propatria Influence

as of the year 2112

According to George Jackson, our incomplete world (universe) is full of evil and that there exists another, "complete" universe, glittering of virtuous light and truth. The reason why our world is a corrupt, unjust, unhappy place is because it's created, "bad" or "mean".

Meanwhile, they cooperate and form global alliances, such as the military organization called **Memad** in the series. A lot of its members are from various tribes or some other minorities, but gradually a lot of "cultural refugees" who cannot adapt themselves to modernization, joined the organization. By stock exchange, money lending, illegal drug manufacturing and smuggling Memad has obtained a lot of resources and has become a great influential power.

Sacrifice Tests

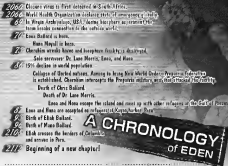

Tests that was abandoned due to the Glorious virus crisis. All the cities with high population density were wiped out without exception. Like country borders, it was sealed off, but is still inhabited by homeless people and refugees.

Islamic Federation

In present day 2000, Arab Islamic Federation keeps expanding and re-establishing, but in the Eden crisis, having realized the dangers of the Propatria Federation expansion, Islamic countries decided to form their own coalition, the Islamic Federation as an opposing measure. However, as one could see, such country has its own agenda and the Islamic Federation wasn't exactly be called a coalition entity.

Propatria Federation

Like the Islamic Federation, this has problems with membership. America, England, and Australia is leading position given the impression of "world under Anglo-Saxon rule", Russia, Spain, some eastern European countries and middle and South Africa were able to participate. Eventually, the European Union split up. China and Russia opposed the Federation, and numerous countries in Central Asia wanting to eradicate the influence from these two superpowers, joined the Federation promptly. Central and South America followed, but Peru, Chile, Argentina, and Uruguay resisted. South Africa, having relations with France and due to its closer opposition from Islamic followers, held its stance. The same happened to Malaysia and Indonesia. You can easily imagine where Japan ended up with much of it's military and economic dependency on America.

A CHRONOLOGY OF EDEN

Agencia / Genesis Territory

Genesis means "violent" and agencia means "ignominy" in Genesis's philosophy, "we must rise from ignominy. Agencia, to the state of war, Genesis and truly increased in territory of the superior order". In this sense, Propaganda calls agencies that have joined their federations "Genesis" and those that have not "Agencia".

Drug Cartels

By around day 2000, for western multinational corporations, the South American countries are a very valuable source of natural resources, but at the same time, are the closest victims of globalization. But concerning this topic, I suggest that you read the book about this subject written by Russ Clonerty "According to him, the most straightforward and honest way to gain foreign currency is by drug smuggling, which is the idea that this sector follows as well. These organizations, whose home base is located in Colombia, extended with northwest Africa, Central Asia and built a connection with the Kremlin in the process. In addition, the organization has ties with other drug smuggling organizations of Mexico of Siberia and of South America in Russia, and now controls over 40% of world total drug market supply." <Russia>

Vatican

Headquarters of the Catholic church located inside the city of Rome. It is an independent state, ruled by the Pope. Also depicted in "Gentlemen III", Vatican has a lot of political and economic power around the globe. In Eden, the Vatican is the most opposing force of the Propaganda federation and has powerful influence on South America where numerous countries have Catholicism as their state religion.
